March 3, 2022 Regular Session (Via Zoom) City Hall Conference Room 48318 E 1st Street 7:00 p.m.

MINUTES

CALL MEETING TO ORDER- 7:00 pm

Council Present: Mayor Christina Hollett, Councilors, Michelle Coker, Dawn Kinyon, Audy Spliethof, Melissa Bjarnson

and Jan Hooker

Staff Present: City Administrator Kevin Cronin Pro Tem, Police Chief Kevin Martin, Finance Director Colleen Shirley

and Assistant City Recorder Jackie Taylor

2. Pledge of Allegiance

3. Roll Call-Councilor Whitney was excused

4. Additions, corrections or adjustments to the agenda

Move appointments to 9.2 for Councilor, 9.3 for Budget Committee and 9.4 for Library Board.

Add 9.5 Budget Training

5. Public Comments

Trudy Hammond-does the city have a surveyor? She withdrew her application for the city council.

Mayor Hollett-read an email submitted regarding Ord. 938

6. Mayor Comments / Announcements / Proclamations

Mayor Hollett-discussed the petition for Ord 938. She went over the meetings she has attended recently.

7. Council Comments / Announcements

Councilor Bjarnson-she really appreciates the citizens coming forward signing the petition.

Councilor Spliethof-he also appreciates the citizens and asked if there is an update on the Special District.

8. Consent Agenda

8.1 Approval of minutes from 12/16/2021, 1/6/2022, 1/12/2022 and 1/20/2022

Councilor Kinyon- wanted to take out 1/6/2022

Motion: Councilor Kinyon moved to approve the consent agenda. Councilor Bjarnson seconded the motion.

Spliethof (aye), Kinyon (aye), Coker (aye), Mayor Hollett (aye), Bjarnson (aye). Motion passed 5-0

9. Business from the City Council

9.1 City Auditor Brief

Brad Turano-gave the auditor brief to the council.

9.2 Councilor Appointment

Mayor Hollett-read the issue

Jan Hooker-she is the applicant, Jan introduced herself and explained why she wants to be a city councilor.

Motion: Councilor Spliethof moved to appoint Jan Hooker to fill the City Council vacancy for a term ending 12/31/2022. Councilor Coker seconded the motion.

Coker (aye), Bjarnson (aye), Spliethof (aye), Kinyon (aye), Mayor Hollett (aye). Motion passed 5-0.

9.3 Budget Committee Appointment

Motion: Councilor Spliethof moved we appoint Jeri Reed to serve on the Oakridge Budget Committee for a term of three years. Councilor Bjarnson seconded the motion.

Spliethof (aye), Kinyon (aye), Coker (aye), Hooker (aye), Bjarnson (aye), Mayor Hollett (aye). Motion passed 6-0.

9.4 Library Board Appointment

Applicant was not in attendance

9.5 Budget Training

Kevin Cronin-he will get this information out to the council.

9.6 PSF Update

Colleen-she will have the numbers at the next meeting.

10. Business from the City Administration

10.1 Introduction of the New City Administrator Pro Tem

Mayor Hollett-introduced the City Administrator Pro Tem Kevin Cronin.

Kevin Cronin-gave kudos to the staff. He attended the Chamber meeting

10.2 City Engineer selection

Councilor Kinyon-read the issue

Motion: Councilor Kinyon moved we appoint Curran-McLeod as the City Engineer of Record for a period of one year. Councilor Coker seconded the motion.

Councilor Spliethof-was Curran-McLeod with us previously?

Councilor Bjarnson-it does not behoove us to go through another RFP process.

Spliethof (aye), Coker (aye), Kinyon (aye), Mayor Hollett (aye), Bjarnson (aye), Hooker (aye). Motion passed 6-0 10.3 TRT Request - Banner Park Project Mayor Hollett-read the issue. Lynda Kamerrer and Charles Nichols gave a presentation on the proposal that they have for the use of the funds. Motion: Councilor Kinyon moved that we approve \$5000 in TRT funds to assist in funding the approved permaculture design for Banner Park. Councilor Spliethof seconded the motion. Hooker (aye), Spliethof (aye), Kinyon (aye), Bjarnson (aye), Coker (aye), Mayor Hollett (aye). Motion passed 6-0 11. Reports of Boards, Commissions and Committees 11.1 Administrative Committee 11.1.1 Charter Review Subcommittee 11.2 Parks and Community Services Committee 11.3 RTMP Committee 12. Items Removed from the Consent Agenda-none 13. **Public Hearings-none** 14. Ordinances, Resolutions-none 15. **Appointments** Appointments were moved to Business from the City Council 16. **Public Comment** Dan Barclay 47501 Hwy 58- welcomed the Pro Tem City Administrator and commended the Mayor and Council. **17.** Adjourn Regular session 8:48 pm Executive Session ORS 192.660 (2) (a) to conduct deliberations with persons designated by the governing body to consider the employment of a public officer, staff member, employee or individual agent. CITY OF OAKRIDGE REQUEST FOR COUNCIL ACTION

DATE ACTION REQUESTED: April 21, 2022				
Ordinance	Resolution	Motion □X	Information	
Date Prepared: April 14, 2022		Dept.: City Administrator's Office		
SUBJECT: Willamette Activity Center Cost Estimate		Contact Person for this Item: Kevin A. Cronin, City Administrator Pro Tem cityadministrator@ci.oakridge.or.us (541) 782-2258		

SUBJECT: Review proposed scope of work and budget for Willamette Activity Center (WAC) cost estimate.

BACKGROUND: The City Engineer issued a report for the renovation of the WAC in 2010, which cost \$10,000. The Council requested an update to the original cost estimate to understand the ramifications of a renovation or redevelopment of the site. Staff requested a scope of work and budget (enclosed) from the City Engineer. The information gathered will also help the City Council make an informed decision about the future use of the building and site. The update will cost the following:

\$4,500 - Report

\$1,500 - Structural Analysis

\$6,000 - TOTAL

Staff is requesting City Council review and approval to authorize the work, which is expected to take about four months to complete. The final report will be presented to the City Council at this time.

RECOMMENDATION: Staff recommends approval subject to any specific conditions authorized by the City Council.

RECOMMENDED MOTION:

"I move to approve the scope of work and budget and authorize the City Administrator Pro Tem to execute the contract."

ALTERNATIVE MOTION:

"I move to continue the discussion at the next regularly scheduled City Council meeting."

FINANCIAL IMPACT:

The Proposed Budget FY 2022-23 will have funds for professional services. The City Engineer can invoice after the completion of the report next fiscal year.

Mr. Kevin Cronin Interim City Administrator City of Oakridge PO Box 1410 Oakridge, OR 97463

RE: CITY OF OAKRIDGE WILLAMETTE ACTIVITY CENTER (WAC)
2010 RENOVATION CONSTRUCTION COST ESTIMATE UPDATE
SCOPE OF SERVICES AND FEE ESTIMATE

Dear Kevin:

Pursuant to our conversation about this matter here is an estimate to update the renovation construction cost estimate for the City's existing WAC facility, originally prepared by CURRAN-McLEOD, INC. in 2010.

It is anticipated that the project will include a site visit, update of all cost estimates, a comparison of demolition and new construction versus refurbishment of existing facility, and a summary letter report. The total cost of CURRAN-McLEOD INC.'s services will be \$4,500.

In light of the time passed since the original report was completed and our understanding that significant deterioration of the facility structure has occurred, we would also request that our structural engineer, Hayden Engineers, review the facility with us. The scope of their services would be inspection of the building shear walls, roof connections, and beam systems to assess their structural integrity. The review would also focus on seismic upgrades required by changes in the Oregon Structural Specialty Code, occurring since 2010. The additional cost of this review would be \$1,500.

The total amount requested is \$6,000. A cost break out of the services required for the update is summarized in Table 1, attached with this letter. Once notice to proceed is given for this work, we anticipate that the revised report will take three months or less to complete.

Should you have any questions and/or concerns related to this scope of services and fee estimate please feel free to contact me.

Very truly yours,

CURRAN-McLEOD, INC.

Edward P. Hodges, P.E.

CITY OF OAKRIDGE REQUEST FOR COUNCIL ACTION

DATE ACTION REQUESTED: April 21, 2022				
Ordinance	Resolution	Motion □X	Information \square	
Date Prepared: April 14, 2022		Dept.: City Administrator's Office		
SUBJECT: Excavator Bids		Contact Person for this Item: Kevin A. Cronin, City Administrator Pro Tem cityadministrator@ci.oakridge.or.us (541) 782-2258		

SUBJECT: Review bids for new excavator and authorize purchase.

BACKGROUND: The Public Works Department would like to purchase a new excavator to replace an existing one that is in very poor condition. The excavator can be used for various city projects including installation of utilities at the Oakridge Industrial Park and emergency response. The machinery is vital to PW operations as well as to make repairs after natural disasters. The new machinery also has multiple capabilities for attaching other equipment.

The purchase was budgeted for FY 2021-22. Enclosed are three bids from vendors with varying costs. The preferred bid is with Sonsary Machinery CASE CX16D for \$208,299. This exceeds the \$200,000 that was budgeted but can be absorbed with other budgeted funds.

Staff is requesting City Council review and approval to authorize the purchase. Delivery cost is included in the bid and the excavator is already ready for delivery.

RECOMMENDATION: Staff recommends approval subject to any specific conditions authorized by the City Council.

RECOMMENDED MOTION:

"I move to approve the purchase and authorize the City Administrator Pro Tem to execute a contract."

ALTERNATIVE MOTION:

"I move to continue the discussion at the next regularly scheduled City Council meeting."

FINANCIAL IMPACT:

There are adequate funds in the current budget.

THIS AGREEMENT IS SUBJECT TO THE ADDITIONAL TERMS AND CONDITIONS ON THE REVERSE SIDE. CUSTOMER HAS HAD THE OPPORTUNITY TO READ THE TERMS OF THIS AGREEMENT PRIOR TO SIGNING.

Purchaser's Signature	Sales Consultant	Date
Print Name	Date Accepted By	Date

- 1. This is a cash transaction. If the Purchaser so requests prior to acceptance, the Cash Due on Delivery may be financed as a time sale transaction, subject to credit approval. If this transaction becomes a time sale, Purchaser agrees (1) to make payments pursuant to the Sonsray Machinery Accounts Receivable System Agreement, which is incorporated into this Purchase Order by reference, and (2) that Seller retains a security interest in the goods described herein until all obligations of Purchaser are paid in full and discharged.
- 2. When trade-in equipment is not to be delivered to the Seller until delivery of the equipment purchased by this order, the trade-in equipment may be reappraised at that time and such reappraisal value shall determine the allowance made for such trade-in equipment. When the reappraised value is less than the original trade-in allowance shown on this form, the purchaser may terminate this order; however, this right of termination must be exercised prior to delivery of the equipment by Seller and surrender of the trade-in equipment to Seller.
- 3. The prices which Purchaser will pay for the new equipment set forth on the reverse side hereof shall be based upon the Case dealer price in effect on date of delivery of the new equipment. In the event Case dealer's price is changed prior to delivery, the purchase price shall be adjusted accordingly. If such price change results in an increase, purchaser has the option of canceling the order in writing immediately on being notified thereof.
- 4. The Seller shall be excused if delivery is delayed or rendered impossible by differences with workmen, strikes, work stoppages, car shortages, delays in transportation, inability to obtain labor or materials and also by any cause beyond the reasonable control of Seller, including but not restricted to acts of God, floods, fire, storms, acts of civil and military authorities, war and insurrections.
- 5. Purchaser shall keep the property free of all liens, taxes, encumbrances and seizure or levy, shall not use same illegally, shall not damage, abuse, misuse, abandon or lose said property, shall not part with possession thereof, whether voluntarily or involuntarily or transfer any interest therein or remove same out of the county or filing district in which Purchaser resides as indicated herein without the prior written consent of Seller, shall keep said property insured in such amounts and with such insurer as may be acceptable to Seller with any loss payable to Seller as his interest in the property may appear.
- Time is of the essence of this contract and if purchaser fails to comply with any of the terms and conditions hereof or defaults in the payment of any installment hereunder or under any renewal or renewals hereof, or in the payment of interest or defaults in the payment of any installment due under any other indebtedness of contract held by the Seller or Assignee, or if proceedings are instituted against Purchaser under any bankruptcy or insolvency law or Purchaser makes an assignment for the benefit of creditors or if for any reason the Seller deems himself insecure and so declares all payments heretofore made by Purchaser shall be retained by the seller and all indebtedness hereunder shall become immediately due and payable, with or without notice, together with all expenses of collection by suit or otherwise, including reasonable attorney fees and Seller may, without notice or demand, take possession of the equipment set forth on the reverse hereof, or any additions to, replacements of, or any proceeds from said equipment or may render the property unusable or Seller may require Purchaser to assemble the property and make it available at a place designated by Seller. Seller may resell the retaken property at public or private Sale in accordance with the Uniform Commercial Code or applicable state or provincial law. After deducting reasonable expenses for retaking, repairing, holding, preparing for sale, other selling expenses including attorney fees and legal expenses, the remaining proceeds of Sale shall be credited upon the amount of indebtedness remaining unpaid hereunder, and Purchaser agrees to pay any deficiency upon demand by Seller, any surplus, however, shall be paid to Purchaser. Said retaking or repossession shall not be deemed rescission of the contract. Seller may exercise any other rights and remedies provided by applicable law.
- 7. No waivers or modifications hereof shall be valid unless written upon or attached to this contract. Waiver or conditions of any breach or default hereunder shall not constitute a waiver of any other or subsequent breach or default. Payments received by Seller are to be applied first to delinquent interest and then to principal.
- 8. The remedies provided for herein are not exclusive and any action to enforce payment shall not waive or affect any of the holder's rights to have recourse to the property. The transfer of this contract shall operate to pass a security interest in the property as security for the payment hereof.
- 9. Any provision of this contract prohibited by the laws of any state, the United States, any province of Canada, shall be ineffective to the extent of such prohibition without invalidating the remaining portions of the contract.
- 10. Each maker, endorser, guarantor and surety hereon severally waives presentment, demand protest, and notice of non-payment and all defenses of want of diligence in collection and bringing suit. This contract shall be binding upon and shall insure to the benefit of the parties hereto and their respective heirs, personal representative, successors, and signs.
- 11. Buyer authorizes Seller to insert the Serial and/or model numbers of the goods set forth on the reverse side hereof for the purposes of identifying said goods. The seller may correct patent errors herein.

Cat® 317

Hydraulic Excavator

The 317 Hydraulic Excavator boosts productivity on your jobsite. Standard, easy-to-use Cat® technologies, performance upgrades, and low fuel and maintenance costs allow you to move material all day with speed and precision while keeping more money in your pocket.

Not all features are available in all regions. Consult your Cat dealer for specific configurations available in your region.

High Performance and Productivity

- Increased breakout forces and hydraulic power increase productivity by up to eight percent over the previous model.
- The advanced hydraulic system provides the optimum balance of power and efficiency while giving you the control you need for precise digging requirements.
- Reduce fuel consumption by up to five percent over the previous model.
- Match your machine to the job with power modes. Let Smart
 mode automatically match engine and hydraulic power to working
 conditions. Power mode constantly provides maximum productivity,
 and ECO mode minimizes fuel consumption in less-demanding
 applications.
- Get higher production in demanding applications, easier penetration into piles, and faster cycle times with Cat Advansys™ bucket tips. Quickly change tips with a simple lug wrench instead of a hammer or special tool, improving safety and uptime.
- Auxiliary hydraulic options give you the versatility to use a wide range of Cat attachments.
- The Cat C4.4 engine meets U.S. EPA Tier 4 Final emission standards.
- Don't let the temperature stop you from working. The 317 has an optional cold-start capability of -25°C (-13°F).

Boost Efficiency and Productivity with Cat Technology

- Boost productivity up to 45 percent versus traditional grading with the standard Cat Grade with 2D system – includes indicate-only and laser capability.
- Dig with guidance to depth, slope, and horizontal distance to grade.
 You can set up to four different depth and slope targets to help save time and money.

- Standard 2D E-Fence prevents your machine from moving outside operator-defined parameters.
- Achieve precise load targets and increase loading efficiency with standard Cat Payload which provides on-the-go weighing and realtime estimates of your payload without swinging.
- Upgrade to Cat Grade with Advanced 2D to create and edit grade designs with ease on a second high-resolution 254 mm (10 in) touchscreen monitor.
- Upgrade to Cat Grade with 3D to create and edit designs with ease and see the front linkage's full range of motion on a second highresolution 254 mm (10 in) touchscreen monitor.
- Know the excavator's exact position relative to GPS and GLONASS systems. The machine automatically compensates for excavator pitch and roll caused by sloping ground conditions.
- Use the excavator's onboard cell technology to quickly connect to 3D services like Trimble Connected Community or Virtual Reference Station
- Remote Troubleshoot connects you to a dealer service pro to help solve your problem and quickly get you to work.
- Remote Flash works around your schedule to ensure your machine's software is up to date for optimal performance.
- The Cat App helps you manage fleet location, hours, and maintenance schedules; it also alerts you for required maintenance and even allows you to request service from your local Cat dealer
- Standard Product Link™ automatically and accurately collects data from your connected assets – any type and any brand. Information such as location, hours, fuel usage, productivity, idle time, maintenance alerts, diagnostic codes, and machine health can be viewed online through web and mobile applications.

Cat® 317 Hydraulic Excavator

Work in Comfort in the All-New Cab

- Increase operator productivity with an all-new, larger cab.
- The Comfort cab is equipped with a mechanical suspension seat.
 The Deluxe seat is heated and air adjustable, while the Premium seat is heated and cooled and adjusts automatically.
- Get in and out of the cab easier using the tip-up left console.
- Advanced viscous mounts reduce cab vibration.
- Control the excavator comfortably with easy-to-reach controls, all located in front of you.
- Stow your gear with plenty of in-cab storage beneath and behind the seat, overhead, and in the consoles. A cup holder, document holder, and coat hook are also provided.
- Use the standard radio's USB ports and Bluetooth® technology to connect personal devices and make hands-free calls.

Simple to Operate

- Start the engine with the push of a button, a Bluetooth key fob, a smartphone app, or the unique Operator ID function.
- Program your preferred power mode and joystick settings using your Operator ID. The excavator will automatically remember your selections.
- Navigate quickly on the standard high-resolution touchscreen monitor or with the aid of the jog dial control.
- The Cat PL161 Attachment Locator is a Bluetooth device that
 makes finding your attachments and other gear quick and easy. The
 excavator's onboard Bluetooth reader or Cat App on your phone
 will locate the device automatically.
- Save time and energy with work tool recognition. A simple shake
 of the attached tool confirms its identity, ensuring all attachment
 settings are correct, so you can get to work quickly and efficiently.
- Not sure how a function works or how to maintain your machine?
 Simply access the operator's manual through the touchscreen monitor.

Lower Maintenance Costs

- Expect up to 20 percent less maintenance costs over the previous model.
- Quickly check and service your machine with all daily maintenance points accessible from ground level.
- Check the engine oil level quickly and safely from the ground. Fill and check engine oil on top of the machine with a conveniently located second dipstick.
- Track your machine's filter life and maintenance intervals on the in-cab monitor.
- The new hydraulic oil filter provides improved filtration performance, anti-drain valves to keep oil clean when the filter is replaced, and longer life with a 3,000-hour replacement interval – 50 percent longer than previous filter designs.
- S·O·SSM ports are located at ground level, simplifying maintenance and allowing for quick, easy extraction of fluid samples for analysis.

Safety

- Access all daily maintenance points from ground level no need for you to climb on top of the machine.
- The standard ROPS cab meets ISO 12117-2:2008 requirements.
- A ground-level shutoff switch stops all fuel to the engine and shuts down the machine when activated.
- A rearview and right-side-view camera are standard. Upgrade to 360° visibility to easily see objects and personnel around the excavator in a single view.
- New service platform design provides easy, safe, and quick access to the upper service platform. Prevent slipping with the anti-skid punch plate on the platform steps.
- Optional boom and stick lowering check valves prevent reverse flow, keeping your front linkage securely in place should the hydraulic system unexpectedly lose power.
- Brightly colored seatbelts allow easy recognition of properly utilized safety restraints.
- Antennas have theft-prevention bolts; a special tool makes them easy to remove at the end of a shift.

Standard and Optional Equipment

Cat® 317 Hydraulic Excavator

Technical Specifications

Eng	jine	
Engine Model	C4	.4
Engine Power – ISO 14396:2002	98 kW	131 hp
Net Power ~ ISO 9249:2007	97 kW	130 hp
Bore	105 mm	4 in
Stroke	127 mm	5 in
Displacement	4.4 L	269 in ³

- No engine power derate required below 3000 m (9,840 ft) altitude.
- Net power available at the flywheel when the engine is equipped with fan, air cleaner, aftertreatment, and alternator with engine speed at 2,200 rpm.

Hydraulic System			
Main System - Maximum Flow	296 L/min	78 gal/min	
Maximum Pressure – Equipment	35 000 kPa	5,076 psi	
Maximum Pressure — Travel	35 000 kPa	5,076 psi	
Maximum Pressure – Swing	25 800 kPa	3,741 psi	

Swin	g Mechanism	
Swing Speed	8.7	rpm
Maximum Swing Torque	61 kN-m	44,990 lb-ft

	Weights	
Operating Weight	18 200 kg	40,200 lb

Long undercarriage, Reach boom, R3.1 (10'2") stick, GD 0.76 m³ (0.99 yd³) bucket, 700 mm (28") triple grouser shoes and 3.57 mt (7,870 lb) counterweight.

Service Refill Capacities		
Fuel Tank Capacity	271 L	71.6 gal
Cooling System	28 L	7.4 gal
Engine Oil	15 L	4.0 gal
Final Drive	6 L	1.6 gal
Hydraulic System (including tank)	94 L	24.8 gal
Hydraulic Tank	87 L	23.0 gal
DEF Tank	22 L	5.9 gal

Dimensions			
Boom	Reach 5.1 m (16'9")		
Stick	Reach R2.9 m (9'6")		
Bucket	GD 0.76 m³ (0.99 yd³)		
Shipping Height (top of cab)	2930 mm	9'7"	
Handrail Height	2940 mm	9'8"	
Shipping Length	8570 mm	28'1"	
Tail Swing Radius	2500 mm	8'2"	
Counterweight Clearance	1010 mm	3'4"	
Ground Clearance	430 mm	1'5"	
Track Length	3970 mm	13'0"	
Length to Center of Rollers	3170 mm	10'5"	
Track Gauge	1990 mm	6'6"	
Transport Width – 700 mm (28") Shoes	2690 mm	8'10"	

Working Ranges			
Boom	Reach 5.1	l m (16'9")	
Stick	Reach R2.9 m (9'6")		
Bucket	GD 0.76 m	³ (0.99 yd³)	
Maximum Digging Depth	6400 mm	21'0"	
Maximum Reach at Ground Line	9010 mm	29'7"	
Maximum Cutting Height	8900 mm	29'2"	
Maximum Loading Height	6280 mm	20'7"	
Minimum Loading Height	1990 mm	6'6"	
Maximum Depth Cut for 2400 mm (8'0") Level Bottom	6170 mm	20'3"	
Maximum Vertical Wall Digging Depth	4960 mm	16'3"	
Minimum Working Equipment Radius	2940 mm	9'8"	
Bucket Digging Force (ISO)	123 kN	27,650 lbf	
Stick Digging Force (ISO)	75 kN	16,860 lbf	

Air Conditioning System

 The air conditioning system on this machine contains the fluorinated greenhouse gas refrigerant R134a (Global Warming Potential = 1430). The system contains 0.9 kg of refrigerant which has a CO₂ equivalent of 1.287 metric tonnes.
