Please be aware of upcoming roadwork and waterline replacement in your area.

The City of Oakridge found a water leak that is not fixable due to its location leaving 2 residents with little water. We will be installing a new main down East 3rd street from 48448 East 3rd ending at 48528 East 3rd. Work will begin Tuesday the 17th. Traffic will be interrupted throughout the day. We encourage residents to access their property via 3rd street off of east 1st. If all goes well we should have this completed by October 27th.

If you have any questions you can contact the Maintenance supervisor at robeartchrisman@ci.oakridge.or.us. Or Public Works Director at rickzylstra@ci.oakridge.or.us phone # 541-782-2258.
