Robeart Chrisman
PO Box 1410
Oakridge OR 97463

To Robeart Chrisman:

Thank you for the cooperation during the **water system survey on 4/6/23 at City of Oakridge (Oregon Public Water System #00582).**

The main purpose of the survey is to evaluate the entire water system in terms of supplying safe drinking water to the public. I have enclosed a copy of the water system survey report. Please let me know if Lane County Drinking Water Program needs to make corrections to the survey report.

Currently there are no significant deficiencies with these systems.

The Drinking Water Program has established criteria for determining whether a system should be considered to have “Outstanding Performance.” Systems that are designated Outstanding Performers may have their water system survey frequency reduced from every 3 years to every 5 years. **Congratulations, your water system met the established criteria.** Therefore, your next water system survey will be scheduled in 5 years. I have enclosed a certificate along with a handout that describes the Outstanding Performance criteria so that you can assure your system continues to meet these criteria

If you have any questions or concerns, please contact me at (541) 682-3954 or by email: nicholas.alviani@lanecountyor.gov

Sincerely,

[Nicholas Alviani](#)
